

WHY ARE MORE PEOPLE CHOOSING HOME HEALTH CARE?

Skilled nursing services provide much needed relief for caregivers who are helping their loved ones manage chronic health conditions, like diabetes or dementia.

65+

By 2050 there will be **84 million people** over the age of 65.

Nearly **70%** of Americans aged 65 or older will require assistance at some point in their lives.

34.2 million people in the U.S. have provided uncompensated care for an adult aged 50 or over in the last 12 months.

The Benefits of Home Health Care

Home health services offer important medical benefits like...

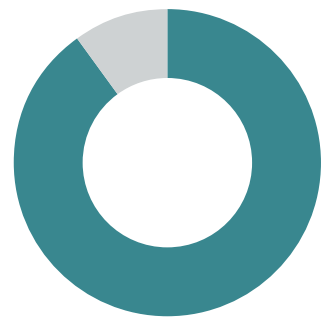

Post-surgical wound care

Physical therapy

Assistance with medication

90% of Americans over the age of 65 would prefer to receive care at home.

25% of seniors using home care reported fewer doctor visits.

Home health care contributed to an **8%** decrease in hospital admissions for people with dementia.

If your loved one has been involved in a major health event, the supervision of a qualified medical professional is a vital part of the recovery process.
